WEEE Directive

Alere Limited is an ISO14001:2004 certificated organisation and is committed to ensuring its products and services do not adversely affect the environment. In support of our environmental goals, Alere operates a formal product Disposal and Recycle Service that complies with the European Union Directive 2002/96/EC on waste electrical and electronic equipment (WEEE)

All Equipment that is returned through this service will be handled in an environmentally safe manner using processes that comply with the WEEE Regulations. This service is for Alere customers who have WEEE products that have reached their end of life and are ready for disposal. Alere will accept all electrical electronic equipment that has the standard WEEE crossed-out wheeled dustbin symbol shown below.

This product contains electrical or electronic materials. The presence of these materials may, if not disposed of properly, have potential adverse effects on the environment and human health. Presence of this label on the product means it should not be disposed of as unsorted waste and must be collected separately.

As a consumer, you are responsible for ensuring that this product is disposed of properly. To find out how to properly dispose of this product, visit our website www.alere.co.uk for instructions for collection of WEEE on the left or call the Alere Customer Care Team on 0161 483 5884.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'David Horne', written over a horizontal line.

David Horne
